

Dear Sirs or Maam,
As an XM radio paid subscriber, I enjoy the freedom to listen to whatever type of music, talk or variety show of my choosing. I chose XM because I was tired of the local am/fm radio stations that did not provide quality service or programming. XM is constantly striving to improve it's service such as "XM INSTANT WEATHER AND TRAFFIC" and yet in spite of its improvements the NAB's petition 04-160 seeks to demise XM's quality service. I ask that you reject the NAB's petition and allow XM Radio to provide the outstanding programs it currently offers without any interruption, after all I am paying for it!

Thank you,

Rafael Marroquin, Jr.
